TREES – SHRUBS – WILD FLOWER PLANTS

WILD FLOWER BULBS

Welcome to our countrywide mail order PLANT CATALOGUE.

We can supply a full range of British trees, shrubs and wild flower plants for any conservation, amenity or forestry scheme. You can create a complete habitat!

We strive to offer 100% British origin, native provenance stock, but are sometimes frustrated by poor local seed crops.

Trees and shrubs are available as bare-rooted (field cultivated) or rootrainer (cell-grown) stock.

Orders are prepared with freshly dug plants, meticulously packed and sent anywhere in the country by express carrier.

Our list of planting accessories will ensure full protection and care for your planting scheme. We have everything you need to repel nibbling pests, suppress competing grass and boost growth with mini greenhouses.

We have over 150 species of **Wild flower plants and bulbs** available to brighten up your garden, a corner of the school grounds or a public space.

We welcome enquiries from all sources. We have supplied individuals, local authorities, community and conservation groups, schools, landowners and contractors – to name a few!

Ordering couldn't be easier now. We can take written, E-mailed or telephone orders paid for by credit card or cheque.

Whilst we will do our best to help with any enquiries we regret we are not able to receive personal callers.

We look forward to helping you

Dave Adams

Page	CONTENTS
2	Useful information!
3-7	Bare-root tree list
7	Wildlife hedge collection
8-9	Rootrainer trees
10	Wild flower bulbs
10,11	Wild flower plants
12	Planting accessories
12	Tree carriage & packing
12	Order form checklist

HOW TO ORDER: Send us your choice of plants and accessories on your official order form or letterhead, by post E-mail or fax following the order guidelines on page 12.

MINIMUM QUANTITY: Please note the minimum order quantities, i.e. for bare root trees of 25 plants.

MIXED ORDERS: Plants are sourced from different specialist nurseries. If, say, you want rootrainers and bulbs, then separate minimum order quantities apply.

PAPERWORK: Your order goes onto our computer and is given a unique account code and number. You will be sent an order acknowledgement, confirming availability, price and delivery date.

DELIVERY: We usually give you a specific delivery day. You will have to arrange for someone to receive and sign for goods from the carrier. Unfortunately they will never say when they'll arrive!

PACKING & CARRIAGE: Is charged at cost. To simplify payment with order, see our ready reckoner table on page 12.

TIMESCALE: Although we are often able to turn orders round very quickly, please allow up to 28 days for processing and delivery – especially at busy times of the season.

AVAILABILITY: Bare root trees – early November to late March.
Rootrainer trees – all year
Wild flower plants – all year
Wild flower bulbs – September and October.

PRICES: All prices listed are **subject to VAT.**

DISCOUNTS & QUOTES: If you have a large order, special requirements, or local market rates dictate a keener price, contact us for a rapid individual quotation. Are you a deserving cause that ought to qualify for a discount? Try us – we'd like to help!

PAYMENT: We accept credit, debit or switch cards, or a cheque with your order payable to "British Trees and Shrubs"

ACCOUNTS: We welcome new trade customers, but ask that payment for the first order is on receipt of a pro-forma invoice. Send all the usual trade and bank references to open an account.

ORNAMENTAL PLANTS: We specialise in native provenance stock but recognise that there are times when they are not the complete answer. We have a wide range of ornamental trees and shrubs for forestry (conifers), for ground cover and hedging. Let us complete your order! Tell us what you want and we'll price it up.

WILDLIFE HEDGEROW, by the metre!

Hedges have been part of our landscape since Neolithic man started to clear the 'wildwood' about 6,000 years ago. Farming improvements and other land pressures have meant more than 209,000 miles of farm hedge have disappeared in England since 1947 and with them their associated plants flowers and wildlife.

Our chosen trees and shrubs will provide cover for wildlife and a source of seed nuts and nectar.

We provide 5 plants per metre for double line planting for a thick 'stockproof' hedge. Just let us know the length of your hedge and the size of plant.

Our species mix is based on **60% Hawthorn, 5% Blackthorn, 14% Hazel, 5% Field Maple, 5% Dogwood, 2% Spindle, 2% Holly, 2% Dog Rose and 4% Crab Apple.**

PRICES below are in £ per metre (minimum order 5 metres), include all carriage and packing charges but exclude VAT at 17.5%.

LENGTH of hedge	40-60cm plants	60-90cm plants*
5 metres	7.90	8.85
6-10 metres	6.50	7.50
11-25 metres	5.15	6.10
26 metres +	4.60	5.60

*Holly is supplied as 40-60cm size

Rootrainer Trees

in plastic bags.

Rootrainer trees and shrubs are vigorous container-grown, one year old seedlings. They are ideally suited to planting in trees shelters (see accessories on page 12)

They are uniform in size and shape and are easily handled (even by inexperienced planters!). They come complete with undisturbed root plug. The residual fertilizer in the plug also aids establishment. The trees are removed from their plastic growing cells prior to despatch and wrapped in cling film or placed

Minimum order quantity: 25 plants and 5 of each species chosen

Wood Anemone	Anemone nemorosa	22
Ramsons / Wild Garlic	Allium ursinum	21
Snakes Head Fritillary**	Fritillaria meleagris	22

* Limited supplies whilst stocks build up ** Dutch provenance, there are no commercial supplies of native seed origin

HOW TO ORDER:

- ?? **Minimum order:** 100 bulbs and 20 of each species chosen
- ?? **Packing** and despatch: add an extra 10% to order value, before you add VAT
- ?? **Quantity discount:** 5% on 500 bulbs or more. 10% on 1000 or more (please take your discount from net bulb costs)
- ?? VAT is due on bulb and despatch costs

WILD FLOWER PLANTS

Some of our wide range of nursery grown, native provenance (British origin) wildflower plants are listed opposite (sorry, but space precludes scientific names). The plants are available as **seedling plugs** (16ml 22ml & sometimes 40ml capacity) **roottrainer** (container) **grown mature and semi-mature** plants (of 115ml capacity) and **pot grown** plants (of 1L upwards). Seed for the plants is sown in batches, but germinates and matures at different times – so we will not always have your species or size choice. We can suggest alternatives if you let us know details of the site or habitat. Ask us to put together a **HABITAT COLLECTION**, e.g. **meadow** or butterfly!

HOW TO ORDER:

- ?? **Minimum order:** 10 plants per species for the **seedling plugs** and minimum total order of 60 plugs **&/or** a minimum of 3 plants for each species for **roottrainer or pot grown** and a minimum total order of 30 plants.
- ?? **Prices:** because of the variety on offer it is difficult to give a standard price. Contact us with your choice we will give you an individual quote. As a guide only **PLUGS** – **38p to 60p** each, **ROOTTRAINERS** from **80p** and **POTS** individually priced
- ?? **Carriage & packing:** Individually priced
